

During these unprecedented times, Xeris Pharmaceuticals remains committed to supporting people with diabetes on insulin. Given that the healthcare system is overwhelmed, access to hospitals and grocery stores may be limited—people need to have a ready to use glucagon option on-hand. People are experiencing a lot of stress, erratic schedules, loss of jobs and insurance all which can increase the risk of scary low blood sugars.

### Ready to Use Anytime

**Gvoke™ Prefilled Syringe (PFS) 2-pack** is a prescription medicine used to treat very low blood sugar (severe hypoglycemia) in adults and kids with diabetes ages 2 years and above.

**Gvoke™ PFS 2-pack** is the first and only liquid stable glucagon that is premixed, prefilled and premeasured making it easy to use anytime. In studies, 99% of people, trained or untrained, were able to successfully prepare and administer a full dose. Further, with the current status of COVID-19, the recommendation from the CDC experts state to avoid touching your face (eyes nose and mouth) when possible. **Gvoke™ PFS 2-pack** gives diabetic patients six different routes of subcutaneous injection administration (arm, abdomen, thigh).

Xeris recognizes the financial hardships this crisis of COVID-19 is causing patients. To support the diabetes community during this unprecedented time, **Xeris is making Gvoke™ PFS 2-pack available for \$0 with commercially eligible insurance effective now through May 31, 2020** to help ensure patients who need **Gvoke™ PFS 2-pack** have access to it.

To avoid any confusion at the pharmacy or getting the wrong medication, patients must ask their doctor for **Gvoke™ PFS 2-pack** by name. **The Gvoke™ \$0 savings offer** is available here: <https://www.gvokeglucagon.com/copay-card> No activation is required. Patients can print the savings offer via computer and is also accessible via mobile device.

Additionally, now you can request a prescription for **Gvoke™ PFS 2-pack** right from the comfort of your home with free home delivery. Patients can order online and learn more at the link <https://www.gvokeglucagon.com/ordering-gvoke>.
